There are many other ways to practice skills with your child/ren during the break/school closure. We encourage reading books daily (Raz Kids - you can set your child up with a FREE 14 day trial. All books are levelled to your child/ren's ability), practice fine motor skills, writing names or sight words, counting, puzzles/board games and having fun just playing!

A large part of our program is outdoor learning as well so it's always great to take activities outside. Go exploring or embrace the Spring season. Put on your boots and let your child lead your time together.

Thank you for your efforts to support your child at home 😊
